

FATEMA JAMEEL ALNAJJAS

Software Engineer | Full-Stack Web Development | Information System

+973-33143285 | falnajjas@gmail.com | [LinkedIn](#) | [GitHub](#) | Bahrain

PROFILE

Full Stack Software Engineer with a BSc in Information Systems (GPA 3.38) and a General Assembly Software Engineering certification. Delivered 4 web applications using React.js, Node.js, Django, and both SQL and NoSQL databases. Experienced in role-based authentication, REST API design, and multi-stack development. Seeking a product team in fintech, telecom, or tech where I can contribute from day one.

EDUCATION

B.Sc. Information Systems — University of Bahrain

Jan 2026

GPA: 3.38

Software Engineering Bootcamp — General Assembly, Bahrain

Apr 2026

Completed 500+ hours of full-stack engineering training: Front-end, Node/Express, React (MERN), Python/Django — delivered in-person at BIBF, Bahrain

SKILLS

Languages	JavaScript, Python, Java, C#, PHP, HTML, CSS
Frontend	React.js, EJS
Backend	Node.js, Express.js, Django, REST APIs
Databases	PostgreSQL, MongoDB, MySQL, Oracle, SQL
Tools	Git, GitHub, Figma, Visual Studio, IntelliJ IDEA, Power BI, Render
Concepts	REST APIs, MVC Architecture, CRUD, Role-Based Authentication, ERDs, JWT
Professional Skills	Communication, Teamwork, Time Management, Fast Learner

EXPERIENCE

IT Department Intern — Ministry of Industry and Commerce, Bahrain

Sep – Nov 2025

- Supported development and maintenance of internal systems using C# and .NET
- Configured and maintained Windows and Linux environments, diagnosed and resolved hardware and software issues
- Assisted the IT team in system maintenance, technical support, and daily operations

Software Engineering Bootcamp Fellow — General Assembly, Bahrain

Jan – Apr 2026

Built and deployed 4 full-stack portfolio projects (3 collaborative, 1 solo) across front-end, Node/Express, MERN, and Python/Django stacks. Each project included ERD design, user stories, wireframes, and cloud deployment.

PROJECTS

Markabati-VS | AI Vehicle Inspection App | Team of 3 — Senior Project, University of Bahrain

2025

AI-powered mobile application for GCC vehicle inspection and registration management. Contributed across the full development cycle including backend, frontend, and UI prototyping in Figma.

Stack: Flutter · Dart · Supabase · Figma [View Site](#)

AERO Airport Operations Management System <i>Team of 3 — General Assembly Bootcamp, Unit 3</i> Full-stack platform to streamline airport operations with an Admin Dashboard for managing staff, flights, and task assignments, and a Staff Portal for real-time schedule tracking. Implemented role-based access control with JWT authentication. Stack: React.js · Node.js · Express.js · MongoDB View Live	2026
HappyHome Furniture Store Management System <i>Team of 3 — General Assembly Bootcamp, Unit 4</i> Multi-branch showroom system with role-based dashboards, live inventory tracking across branches, and order processing. Designed with ERD and deployed to cloud. Stack: Python · Django · PostgreSQL	2026
Bloom Pharmacy E-Commerce Web App <i>Team of 2 — General Assembly Bootcamp, Unit 2</i> Full-stack e-commerce platform for online pharmacy shopping with product browsing, cart management, and review system. Built efficient backend for product and order management. Stack: Node.js · Express.js · MongoDB · EJS View Live	2026
Word Hunter Word Guessing Game <i>Solo — General Assembly Bootcamp, Unit 1</i> Browser-based word guessing game with category selection (Animals, Foods, Jobs) and an interactive on-screen keyboard. Focused on clean JavaScript logic and responsive design. Stack: HTML · CSS · JavaScript View on GitHub	2026

CERTIFICATIONS

Microsoft Certified: Power BI Data Analyst Associate — Microsoft	Oct 2024
Data Science for Business Innovation — Coursera	May 2024
Prototypes in Figma: Creating Low-Fidelity Designs — Coursera	Apr 2024
